

(Hi Jeffrey--Lil secular steam out the earhole. Best, Frank)

Pictures of Saints

Religio-Pigs run with George Washington
as a result of Parson Weems' bunko.

Truth is that George not much of a God guy.
Weemism has already enshrined the Ronnie.

The present Jesus-liar and moral idiot
will be hagiographed as one who stood!
with Christ against...

The only grace: when full flower reached,
or retched, we'll all be dead.

Frank writes in Florida, once a swamp. Apologies to today's New Jersey,
but the state bird used to be the mosquito. Frank's blog name is
motleycrisp.
